

Report for week ending 12-20-02

1. FAST can now display the systems to be assessed in a "Week-at-a-Glance" format.
2. We conducted a preliminary demonstration for Terry Couch and CDR Stanko and received good feedback that we are incorporating for the January 8th demo in Norfolk.
3. FTSCPAC will be providing an APL to MRC cross-reference matrix and some representative MRCs for Keith to put in the database.
4. Mark Kiser (FTSCLANT) is working on gaining access to the FTSCLANT server for FAST.
5. Keith Conway continues to work on the user interface in preparation for the January 8th demonstration in Norfolk.
6. We continue to make good progress on FAST documentation.
7. There will be no weekly report next Friday. The next weekly report will be promulgated on January 3rd. I hope everyone has a very Merry Christmas.

Best regards,

John Spencer
